

GROUNDS TESTER

GT400HDXL, GT400HDXLVMA,
and GT600VMA Testers

**Provides quality testing of personal protective
grounding assemblies!**

The GT-Series Grounding Assembly Testers are designed to provide integrity testing of the electrical characteristics of portable protective grounding assemblies. The GT-Series Testers provide a reliable test by administering Rated ASTM Current through the grounding assembly and measuring the voltage drop across the assembly. The voltage drop-in conjunction with a thorough visual inspection-determines if the grounding assembly meets ASTM electrical specifications.

The GT-Series Testers are housed in a sturdy carrying case. Each unit is compact, weighs approximately 60 pounds and quickly confirms the condition of an entire grounding jumper assembly. It is easy to operate and can be set up for testing in a matter of minutes by qualified lab or field personnel.

- Powered by conventional 115VAC outlet rated at 20 amps or higher
- Variable transformer allows ASTM continuous current to be applied to cable
- Compact and easy to read reference chart
- Optional voltmeter addition allows for troubleshooting clamp and ferrule connections
- Easily converts for testing elbows, bushings, mechanical jumpers, substation clamps, truck grounds, and cluster grounds.
- Optional adapters are available for special applications (see back page)

**Made in the USA and
Serving the Industry Since 1986**

under US Patents #5,950,954 #6,275,022, #6,459,252
#6,617,840 #6,734,658 #6,753,678 #7,109,699 #7,336,063
and other patents pending

GROUNDS TESTER

GT400HDXL, GT400HDXLVMA,
and GT600VMA Testers

Included Accessories

817542	1/2" Ball stud electrode	
817600S	1/2" Plain electrode	
GT400SP	Stud tightening pin	

Optional Accessories

GT400EALB	1/2" Elbow adapter	
GT400BALB	1/2" LB bushing adapter	
GT400EALB75	3/4" Elbow adapter	
GT400BALB75	3/4" bushing adapter	
GT400EANLB	Non-load break elbow adapter	
GT400BANLB	Non-LB bushing adapter	
GT400CA3	3.5" Substation adapter
